

Mosquito Control

Protection

Our Mosquito Control Program minimizes mosquito populations and reduces the risk of insect born disease. West Nile Virus is very dangerous and poses a deadly risk to humans of all ages. Cases in the Midwest increased dramatically in 2012. Don't let your family and friends go outdoors unprotected!

Convenience

We offer two program options to suit your needs. A scheduled service every three weeks throughout mosquito season is a worry-free way to get your yard back this year. You don't even need to be home when we complete this service for you! One-time mosquito control treatments are great for outdoor parties, graduations, weddings, company picnics and more. "Green" products can also be substituted for conventional products for both program options.

Get Your Yard Back!

Your satisfaction is not just our goal, it's our job! When you schedule your initial inspection, we will identify breeding zones, work with you to reduce your risks, and put together a personalized program to meet your needs and concerns. Protect yourself and your family. Don't let mosquitoes ruin your outdoor fun this year!

Mosquito Control Program Options:

- **Every three weeks**, a scheduled service throughout mosquito season provides continuous protection
- **One-time treatment** prior to family or commercial events, or other gatherings done within 24-72 hours of the event to maximize effectiveness

Mosquito Control Offers:

- ✓ Free estimates
- ✓ Available for residential and commercial customers
- ✓ Inspection to identify mosquito breeding areas
- ✓ All work is guaranteed! If you aren't fully satisfied, we'll retreat for FREE!
- ✓ "Green" products available
